Dear Representatives Wenstrup, Axne and Kelly:

As members of the Partnership for Employer-Sponsored Coverage, we write with our support for the bipartisan Family Savings Flexibility Act (H.R. 7666). We appreciate your recognition that consumer directed health products are an important aspect of employment-based benefits plans.

The Partnership for Employer-Sponsored Coverage is an advocacy alliance of employment-based organizations and trade associations representing businesses of all sizes and the millions of American workers and their families who rely on employer-sponsored coverage every day. We are committed to working to ensure that employer-sponsored coverage is strengthened and remains a viable, affordable option for decades to come.

Because of the COVID crisis and suspension of non-emergency medical visits, routine appointments and procedures, funds under an employee's Flexible Spending Arrangement (FSA) will go unused. H.R. 7666 addresses this concern by enabling the rollover of health and dependent care FSA funds from the current plan year to the next. The legislation also takes the important step of increasing the annual contribution amount to Health Saving Accounts (HSAs).

Again, thank you for leadership on H.R. 7666. We look forward to working with you and your colleagues in a bipartisan manner to bolster employer-sponsored coverage for the millions of hardworking Americans enrolled in these plans.

Sincerely,

Partnership for Employer-Sponsored Coverage
