

The **Partnership for Employer-Sponsored Coverage (P4ESC)** is a nonpartisan advocacy alliance of employment-based organizations and trade associations representing businesses of all sizes and sectors, and the millions of working Americans and their families who rely on employer-sponsored coverage every day.

Employer-sponsored coverage is the backbone of our nation's health care system – the single largest source of coverage in our nation. P4ESC is working to ensure that employer-sponsored coverage remains a viable, affordable option for millions of job creators and American families for decades to come. P4ESC is committed to protecting ERISA, the decades old law that allows for common benefit designs across state lines.

- Employer-sponsored coverage has been the backbone of the American health care system for more than eight decades – providing coverage for the majority of working Americans and their families today.
- Employers of all sizes contribute vast financial and time resources to their employees and families through the employer-sponsored system. Employers have a vested interest in health care quality, value, and system viability.
- Employers have been on the leading edge of health delivery innovation and modeling for decades.
- Employer-sponsored benefit offerings are as diverse as are employers themselves. There is no one-size-fits-all employer benefits plan.

P4ESC membership includes:

- Associated Builders & Contractors
- Associated General Contractors of America
- The Council of Insurance Agents & Brokers
- ERIC – The ERISA Industry Committee
